

High Liner Awarded 2014 Pinnacle Award as Supplier of the Year

Kostuch Media, publisher of the industry magazine Foodservice and Hospitality, announced last week that High Liner has been awarded the Pinnacle Supplier of the Year Award.

Pinnacle Awards are presented to organizations and individuals who display innovation and authenticity while running socially and ethically minded businesses.

We are very proud of the fact that High Liner's sustainability stance was a key driver to being recognized with this prestigious award. As noted in the press release:

"This year's Supplier of the Year worked diligently over the past few years to ensure its products are sustainably produced. In working toward its 2013 year-end goal, High Liner Foods ensured many of its retail and foodservice products display MSC and BAP certification symbols, invested in Fishery Improvement Projects to steer wild fisheries toward MSC certification and engaged its plants in carbon food-print profiling and reduction."

The awards will be presented in December at a formal ceremony at the Royal York Hotel in Toronto.
